

Studio shoots resume, but we proceed with caution.

Coronavirus has not gone away. It is still out there and it is still killing people. We take the risk of COVID19 very seriously. Myself and anyone who assists me are all fully vaccinated. We also all take lateral flow tests before mixing with other people. Currently we are only permitting people who are fully vaccinated to enter the premises. We may also ask you to take a lateral flow test prior to the shoot and ask that you (and your chaperone if you have one), wear a mask when not actually shooting.

Obviously it would be unfair to ask models to take precautions that we are not prepared to do ourselves. We are fully vaccinated and we take lateral flow tests ourselves. We also reserve the right to cancel shoots if anyone involved becomes infected, if the model or her chaperone fail to bring vaccination certificates, or if new government lock-downs take place.
